EDUCATION

KIET GROUP OF INSTITUTIONS AKTU

Bachelor of Technology, Computer Science And Engineering

Ghaziabad, Uttar Pradesh

SEP 2023 – Present

Senior Secondary School

T.R.M Public School

Modinagar , Uttar Pradesh

April 2022 – March 2023

High School

T.R.M Public School

Modinagar , Uttar Pradesh

April 2020 – March 2021

PROJECTS

AI COLLAB CODE | *REACTJS, NODEJS, SOCKET.IO, GEMINI AI API, JAVASCRIPT*

January 2025

- **Developed** a collaborative coding platform, enabling users to work together on real-time projects with integrated chat and live code sharing.
- **Integrated Gemini AI**, allowing users to generate and debug code using conversational prompts within the editor.
- **Enabled** multi-user collaboration, using WebSockets to sync code, chat, and project updates in real time.
- **Implemented** in-browser code execution, enabling users to test and run their code instantly without leaving the platform.

BOOKMART | *HTML, CSS, JAVASCRIPT, NODEJS, MONGODB, EXPRESS, REACTJS*

December 2024

- **Developed BOOKMART**, an online marketplace for buying and selling books, leveraging MongoDB for robust data manage
- **Implemented core features**, including secure user authentication, book listings, and direct buyer-seller communication via an integrated chat system.
- **Deployed and maintained** the platform on Render, ensuring high availability and scalability for users..
- Integrated a review and rating system for books and sellers, enhancing user experience and trust within the marketplace.

GIT HUNTER | *HTML, CSS, JAVASCRIPT, GIT HUB API*

March 2024

- **Developed** Git Hunter, a web application that utilizes the GitHub API to fetch and display user repositories and profile pictures.
- **Implemented** dynamic UI, enabling users to search GitHub usernames and view real-time data with seamless interaction.
- **Focused** on API integration, ensuring efficient data retrieval and error handling for a smooth user experience.

NOTE TAKING | *HTML, CSS, JAVASCRIPT, REACTJS*

November 2023

- **Built** a task management app in React, allowing users to add, edit, and delete tasks with an intuitive interface.
- **Implemented** state management using React hooks for dynamic task updates and seamless user experience.

EXPERIENCE

Technocrats

Present

Domain coordinator

KIET GROUP OF Institutions

- **Led and coordinated** club activities, fostering collaboration and enhancing participation in technical events and workshops.
- **Organized technical seminars and hackathons**, promoting innovation and knowledge sharing among club members.
- **Managed team communications** and resources, ensuring smooth execution of projects and club initiatives.

TECHNICAL SKILLS

Languages: Java, Python, C, , HTML,CSS, Javascript,Nodejs,Reactjs

Frameworks: React, Node.js, Flask, JUnit, WordPress, Material-UI, FastAPI

Developer Tools: Front-End and Back-End in Web Dev (HTML/CSS, Javascript, Mongodb, Nodejs, Reactjs,Express,Nextjs),

Libraries: VS Code, Jupyter Notebook, Google Colab,Google Cloud Platform,Canva,GitHub
